

Exploring the World of Community Health Nursing Workshop

Saturday March 3rd, 2018 – 9:00am - 3:30pm

Goal

The goal for the day is to provide a shared knowledge exchange opportunity for community health nurses and nursing students.

Objectives

1. Participants will gain insights from leaders on potential impact on community health nursing of 'Patients First' implementation in Ontario.
2. Nursing students and community health nurses will network and exchange knowledge to explore the realm of community health nursing opportunities.

Come to hear keynote speaker Kaiyan Fu talk about Influencing Changes in Community Health Nursing. As well, hear from other Community Health Nursing Leaders on our expert nursing panel. We will finish our day with the winner of our student video contest providing the closing keynote speech.

360 Degrees of Community Health Nursing Panel Discussion

Leaders in Community Health Nursing will provide their perspectives and experience related to the implementation of 'Patients First' by the Ministry of Health and Long-Term Care and how it is impacting community health nursing in a variety of sectors.

Moderator: Karen Ellis-Scharfenberg
