Gerontological Nursing Association Ontario Proudly Presents:

“It Takes a Village”

2018 GNAO Biennial Conference

NIAGARA FALLS, ON | APRIL 12&13 2018

PROGRAM OVERVIEW

The time is right for us to consider the “village” we each assemble for ourselves and work within. We know caring for anyone is best done in teams and within a community. This is especially true in the care of older adults. We believe our line-up of dynamic, innovative and compelling speakers will stimulate conversations for change and awaken your passion for the work we do.

Please join us for an inspiring event, highlighting the incredible interprofessional collaborations and innovations taking place in Ontario. The 2018 Gerontological Nursing Association Ontario Biennial Conference will demonstrate how nurses are at the centre of care of older adults, and how they are working alongside other professionals across various sectors to realize the power of a “village”.

KEYNOTE SPEAKER

Dr. Samir Sinha,
MD, DPhil, FRCPC
