# NEW CHAPTER CHAIR

My name is Sasha-Lee Allen, I am currently practicing as an Occupational Health Nurse. I attended the University of Ontario Institute of Technology (Ontario Tech University) where I completed my Bachelor of Science in Nursing (Hons.) degree in 2018. While working in both the public and private sectors, promoting employee wellness has been one of my top priorities. As a visiting nurse, I also support a variety of clients within the community. I am very passionate about mentorship, and my positions as a Lab Tester for the Collaborative BScN program and PSW instructor have enabled me to support others. I enjoy interacting with nurses from various backgrounds as this allows me advocate for issues which are prevalent in different areas of nursing. I am looking forward to engaging with members.
